

Mr. John Wille

"Cornerstone Montgomery and Cornerstone Southern Maryland are a critical source of support to disadvantaged individuals with mental health issues. Since 2018 I have seen both organizations successfully address the many challenges posed by the Covid pandemic and shortcomings in the state's Medicaid programs, and have been proud to support management through these trying times. I look forward to continuing to provide inputs and advice to the organization as it navigates this continuously evolving healthcare environment."

John Wille recently joined the Board as a result of the merger with Southern Maryland Community Network, where he was most recently Board President. He is presently a consultant specializing in technology solutions for international development. Previously, John spent 20 years with the World Bank, advising governments throughout the developing world on technology applications to improve public service delivery and attract foreign direct investment. He also worked in Price Waterhouse's consulting arm as well as in industry and banking. He has a bachelor's degree from Northwestern University and an MBA from the University of Chicago. He is married with three children including an autistic adult son.
